Cautionary Note Regarding “Forward-Looking Information”

This press release contains “forward-looking information” or “forward-looking statements” within the meaning of Canadian and United States Securities Laws, which we will refer to as “forward-looking information”. Except for statements of historical fact relating to the Company, certain information contained herein constitutes forward-looking information.

When we discuss mine plans; costs and timing of current and proposed exploration; development; production and marketing; capital expenditures; construction of transmission lines; cash flow; working capital requirements and the requirement for additional capital; operations; revenue; margins and earnings; future prices of copper and gold; future foreign currency exchange rates; future accounting changes; future prices for marketable securities; future resolution of contingent liabilities; receipt of permits; or other matters that have not yet occurred, we are making statements considered to be *forward-looking information* or *forward-looking statements* under Canadian and United States Securities Laws. We refer to them in this press release as *forward-looking information*.

The forward-looking information in this press release may include words and phrases about the future, such as: *plan, expect, forecast, intend, anticipate, estimate, budget, scheduled, believe, may, could, would, might or will*. We can give no assurance the forward-looking information will prove to be accurate. It is based on a number of assumptions management believes to be reasonable, including but not limited to: the continued operation of the Company’s mining operations, no material adverse change in the market price of commodities or exchange rates, that the mining operations will operate and the mining projects will be completed in accordance with their estimates and achieve stated production outcomes and such other assumptions and factors as set out herein.

It is also subject to risks associated with our business, including but not limited to: risks inherent in the mining and metals business; commodity price fluctuations and hedging; competition for mining properties; sale of products and future market access; mineral reserves and recovery estimates; currency fluctuations; interest rate risks; financing risks; regulatory and permitting risks; environmental risks; joint venture risks; foreign activity risks; legal proceedings; and other risks that are set out in the Company’s Management’s Discussion & Analysis in the 2012 Annual Report.

If our assumptions prove to be incorrect or risks materialize, our actual results and events may vary materially from what we currently expect as provided in this press release. We recommend you review the Company’s Management’s Discussion & Analysis in the 2012 Annual Report, which includes discussion of material risks that could cause actual results to differ materially from our current expectations. Forward-looking information is designed to help you understand management’s current views of our near and longer term prospects, and it may not be appropriate for other purposes. We will not necessarily update this information unless we are required to by securities laws.
