

ENVIRONMENTAL TECHNICAL LEAD/COORDINATOR

Red Chris Development Company Ltd. (RCDC) has an opportunity within the Environmental Department for a Technical Lead/Environmental Coordinator. This position is for work at our mine located 80 km south of Dease Lake, BC in Tahltan traditional territory. The successful applicant will be required to work and stay in camp during their shift rotation. We offer a number of designated flight marshalling points within BC. Qualified applicants from local communities are encouraged to apply.

RESPONSIBILITIES

Reporting to the Environmental Superintendent, the duties of the Technical Lead/Environmental Coordinator include:

- Provide support to the environmental management, protection, and reclamation programs at Red Chris Mine.
- Lead technical team to implement routine water quality monitoring program at the mine site.
- Provide mentorship to technicians to develop their scientific data collection, management and analysis skills.
- Implement studies of lentic and lotic ecosystems through data collection, data analysis and reporting.
- Contribute to technical documents, regulatory reports, management plans and departmental standard operating procedures.
- Advise and support RCDC management and operational planning in environmentally-sensitive areas.
- Manage technical projects and support consultants contributing to scientific studies onsite.
- Maintain compliance with Environmental Assessment Certificate, permit commitments and MDMER regulation by implementing industry best practices and provincial and federally-mandated environmental regulatory standards.

QUALIFICATIONS AND EXPERIENCE

The ideal candidate will have:

- BSc in related field of study minimally required (biology, biogeochemistry, forestry, environmental science, ecology, etc.); MSc Preferred;
- Designation or articling membership for one of the following regulated professional organizations: RPBio (College of Applied Biology BC) or P.Ag or A.Ag (BC Institute for Agrology); similar professional designations considered;
- Minimum 5 years experience as a technician OR 2 years experience in a coordinator or supervisory role;
- Formal training in environmental assessment, fisheries management, reclamation, or stream restoration an asset;
- Aptitude for critical thought and scientific data interpretation;
- Proven leadership experience and strong problem-solving, conflict-resolution and teamwork skills;
- Excellent communication skills; must be able to present relevant, credible scientific information to regulators and stakeholders in verbal and written form;
- Strong organizational, computer, and data management skills;
- Strong sense of integrity and desire to promote a safe, sustainable and environmentally-responsible culture
- Demonstrated commitment to safety;
- Experience or aptitude for working in a culturally diverse workforce

QUALIFIED APPLICANTS CAN SEND THEIR RESUME AND COVER LETTER IN MS WORD OR PDF FORMAT TO:

Red Chris Development Company - hr@redchrismine.ca
